**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13, drawn to a method for the manufacture of a medicament.

Group II, claim(s) 14, 21, 23-26 and 28, drawn to method of treating type I diabetes mellitus.

Group III, claim(s) 15-20 and 23-26, drawn to method of cell transplantation.

Group IV, claim(s) 22, 23-26, drawn to treatment of blood mediated inflammatory reaction.

Group V, claim(s) 27, 34-37, drawn to pharmaceutical formulation.

Group VI, claim(s) 29-33 and 34-38 drawn to a kit containing the drug and the cells.

The inventions listed as Groups I to VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: According to PCT Rule 13.2, unity of invention exists between a group of inventions only when there is technical relationship among the claimed inventions involving one or more of the same or corresponding special technical features. The technical feature of group I is the manufacture of a medicament using a small molecule thrombin inhibitor to treat type I diabetes mellitus. Reference cited in the specification WO 94/29336 on Page 3, lines 19-28, and Gustafsson D., et al (*Thromb Haemost.* 1998, 79(1), pages 110-8) on page 113 in results section, clearly describes the use of several small molecule compounds as useful inhibitors of serine proteases such as thrombin. Thus the technical feature is not a contribution over the art and hence the claims lack unity.

The special technical feature of group II is a method of treating type I diabetes mellitus which is not shared by any other group.

The special technical feature of group III is a method of cell transplantation which is not shared by any other group.

Art Unit: 1654

The special technical feature of group IV is treatment of blood mediated inflammatory reaction which is not shared by any other group.

The special technical feature of group V is pharmaceutical formulation which is not shared by any other group.

The special technical feature of group VI is a kit which is not shared by any other group.

Groups V and VI each have the drug, but the drug is known, so not "a special technical feature within the meaning of PCT Rule 13.2"

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Satyanarayana R. Gudibande whose telephone number is 571-272-8146. The examiner can normally be reached on M-F 8.00 AM-4.30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bruce Campell can be reached on 571-272-0974. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
